TECTONOPHYSICS

Contents

Tectonophysics Volume 241

Research Papers

Pull-aparts, shear fractures and pressure solution
D.C.P. Peacock and D.J. Sanderson 1

Strain partitioning and progressive deformation history in a transpressive belt, northern Appalachians
D. Kirkwood 15

Return to thermal equilibrium of an intermittently drilled hole: theory and experiment
P. Štulc 35

Folding and the development of small sedimentary basins along the New Zealand plate boundary
A. Nicol, H. Cowan, J. Campbell and J. Pettinga 47

Strike-slip faulting on the northern margin of the South China Sea: evidence from two earthquakes offshore of Hainan Island, China, in December 1969
B.-Z. Wei and W.-Y. Chung 55

Strike-slip faults in a rift area: a transect in the Afar Triangle, East Africa
E. Abbate, P. Passerini and L. Zan 67

Contact metamorphism and depth of emplacement of the Manaslu granite (central Nepal). Implications for Himalayan orogenesis
S. Guillot, P. Le Fort, A. Pêcher, M.R. Barman and J. Aprahamian 99

Body-wave velocities in the circum-Adriatic region
D. Herak and M. Herak 121

The transition between the Erris and the Rockall basins: new evidence from wide-angle seismic data
B.M. O'Reilly, F. Hauser, A.W.B. Jacob, P.M. Shannon, J. Makris and U. Vogt 143

The "Panvel Flexure" along the Western Indian continental margin: an extensional fault structure related to Deccan magmatism
A.G. Dessai and H. Bertrand 165

Stress induced by topography and crustal density heterogeneities: implication for the seismicity of southeastern Canada
D.M. Assameur and J.-C. Mareschal 179

Master "blind" thrust faults hidden under the Zagros folds: active basement tectonics and surface morphotectonics
M. Berberian 193

Rejuvenation of the Tethyan passive continental margin of northern Sinai: deformation style and age (Gebel Yelleq area)
A.R. Moustafa and S.M. Khalil 225

Three-dimensional structure of lateral heterogeneities in P velocities in the upper mantle of the southern margin of Siberia and its preliminary geodynamic interpretation
I.Yu. Kulakov, S.A. Tychkov and S.I. Keselman 239

Tectonic regime of the southern Kurile Trench as revealed by multichannel seismic lines
P. Schnürle, S.E. Lallemand, R. von Huene and D. Klaeschen 259

Tectonic evolution of the Anuy metamorphic rocks (Sikhote Alin, Russia) and their place in the Mesozoic geodynamic framework of East Asia
M. Faure, B.A. Natal'in, P. Monié, A.A. Vrublevsky, Ch. Borukaiev and V. Prikhodko 279

Effects of a third phase on the mechanical and microstructural evolution of a granulite
J.V. Ross and K.R. Wilks 303

The Bahia Seamounts: test of a hotspot model and a preliminary South American Late Cretaceous to Tertiary Apparent Polar Wander Path
P.C. Bryan and N.Z. Cherkis 317

Book Reviews
Defects and Processes in the Solid State: Geoscience Applications
S. Ji 341
Himalayan Tectonics
B.C. Burchfiel 342
Experimental Techniques in Mineral and Rock Physics
R. Boehler 345
